Summary:

Full Stack Developer with 4.8 years of professional experience, starting as a **Frontend Developer** and advancing to Full Stack roles at TCS, Centaari AI, and Verizon. Skilled in building high-performance applications using **Javascript, React.js, Next.js, Node.js, and Express.js**. Experienced in workforce analytics, real-time VOICE AI-powered platforms, cab booking systems, support ticketing platforms, and e-commerce applications.

Technical Skills:

Frontend: HTML5, CSS3, **JavaScript (ES6+)**, **TypeScript**, **React.js**, **Next.js**, Three.js, Tailwind CSS, SCSS, Material UI, PrimeReact, Component-driven architecture, SPA Development, React State Management (Redux, Zustand, Context API).

Backend: **Node.js**, **Express.js**, **Nest.js**, Python, REST APIs, GraphQL (Apollo), Prisma ORM, MongoDB, Cube.js, API Security & Rate Limiting.

Techniques & Principles: Responsive UI Design, Cross-Browser Compatibility, Authentication & Authorization (JWT/OAuth), Server-Side Rendering (SSR), Microservice Architecture, Static Site Generation (SSG), Performance Optimization, API Design, End-to-End Development, Agile/Scrum.

Tools & DevOps: Git, GitHub, GitLab, Postman, Swagger, Docker, Firebase, Supabase, CI/CD (GitHub Actions, GitLab CI), Testing (Jest, React Testing Library, Cypress).

Business Impact & Achievements: Delivered **zero P1 production defects** across multiple releases, Performed **production code reviews** ensuring clean, maintainable code. Collaborated with **QA and cross-functional teams** to deliver high-quality releases. Conducted **20+ technical interviews** and mentored junior developers. Organized **team-building and knowledge-sharing sessions**. Led **sprint planning and backlog grooming** aligned with business priorities.

Key Projects:

[AirBrill.in](#) – Built responsive UI from scratch using **Next.js**, resulting in **top Google search ranking**.

[1HairStop.in](#) – Developed pixel-perfect UI and routing with **Next.js**, **Tailwind CSS**, **Sanity**.

[RotoPolymer.com](#) – Designed and implemented **animated scrolling UI** with **Three.js**, **GSAP**.

[FastTrackCabs.com](#) – Engineered **real-time cab booking app** from scratch using **Next.js**.

[Personal Portfolio](#) – Built an interactive 3D portfolio using **Next.js**, **Three.js**, **Blender**.

[SuperStarBriyani.com](#) – Delivered a lightweight static poster UI with **Next.js**.

Industry Experience:

Tata Consultancy Services (TCS), Chennai

March 2021-April 2023

Role: Frontend Developer

Key Contribution & Impacts:

Frontend: React.js, React Router, Code structure, Component-based architecture, reduced page load by 25%.

Collaboration: Code reviews, Pair programming, Cross-functional collaboration (designers, testers, backend devs) Delivered modules with zero P1 defects in production.

Development: Understood API integration, Debugging, Package managers (npm/yarn)

Centaari AI - ARSR, Texas, USA (Remote)

April 2023-June 2024

Role: Frontend Developer

Key Contribution & Impacts:

Frontend: React.js, Next.js, TypeScript, Redux/Context API, Responsive UI, Performance Optimization, Server-side Rendering (SSR), Static Site Generation (SSG),

Backend Exposure: Integrated APIs of Node.js/Express.js architecture, API design principles, MongoDB workflows, Authentication/Authorization (JWT/OAuth), Partnered with backend teams for integration & debugging.

AI/ML Integration: Integrated AI-powered APIs (OpenAI, Whisper) achieving <200ms response speed. Implemented real-time AI-driven features like search, voice chat.

Code Practices: Scalable and modular architecture, Clean code principles, CI/CD awareness, Unit & Integration Testing (Jest, React Testing Library, Cypress), Code reviews, Security & performance best practices

Prodapt Solutions / Verizon India Pvt. Ltd. Chennai

June 2024-Present

Role: Full Stack Developer

Key Contribution & Impacts:

Frontend: React.js, Next.js, TypeScript, SCSS, TailwindCSS, PrimeReact, TanStack Table, Responsive UI, Server-side Rendering (SSR), Static Site Generation (SSG), Component-driven architecture, Performance Optimization.

Backend: Node.js, NestJS, Express.js, REST APIs, GraphQL (Apollo), Prisma ORM, MongoDB, API Security & Rate Limiting, Docker.

Data & Query Handling: GraphQL queries/mutations, Prisma query optimization, Efficient data fetching with React Query / TanStack Query, Caching strategies for scalable applications.

Code Practices: Type-safe development, Scalable and modular architecture, Clean Code, CI/CD pipelines, Error monitoring & logging,

Collaboration & Leadership: Agile/Scrum, Cross-functional collaboration, Code reviews, Mentoring mid-level/junior developers, Conducting 25 technical interviews, Leading feature delivery from design to deployment, Sprint planning, backlog grooming.

Tools & DevOps Exposure: Git/GitLab, npm/yarn, Docker (containerization), Cloud deployment (AWS) release cycle biweekly to daily, CI/CD workflows (GitHub Actions, GitLab CI)
